PROJECTS

MERN FULLSTACK TRAVEL BOOKING WEBAPP(FINAL YEAR PROJECT)

Jun 2023 - Apr 2024

- This project is a full-stack web application built with React on the frontend and a secure backend (Node.js) connected to a database (Mongo DB) for data storage. It integrates Razorpay for payments and offers a secure admin panel with features like user management and package customization

MEDCUBE PHARMACEUTICALS(BASIC FREELANCE PROJECT)

Aug 2023 - Sep 2023

- Simple React website for displaying an organization's information.
- Interactive React frontend showcasing products description ([site preview](#))

SIMPLE BLOG WEBSITE

Jul 2023 - Jul 2023

- Built a dynamic blog website using Node.js for efficient server-side rendering and EJS for clean templating. Leveraging MongoDB (with Mongoose) for persistent data storage, the website offers a user-friendly experience for managing blog content. ([site preview](#))
